

## People cannot live in a world without Safe Food, Potable Water, Clean Air, Vector Control, Sewage Sanitation, Hazardous Material Handling, and Emergency Response!

These are just some examples of the roles and responsibilities of an Environmental Health Professional & Registered Sanitarian! An individual with an RS or REHS / RS credential has demonstrated they have the skill set required to promote the Life, Health, and Well-Being of the Public.

### Are YOU READY to join the ranks of your Fellow Registered Sanitarians?

The Massachusetts Environmental Health Association (MEHA) and Walter P. Saraniecki (Saraniecki Institute for Nutrition & Environmental Health) will be holding a **3-day Review Course for the RS or REHS / RS credential**. This is the perfect opportunity to meet, review, ask questions and study with your Environmental Health colleagues to prepare yourself for the exam. Please note, the exam will **NOT** be offered at the site or as part of this course.
